

PARTNER IN MISSION

SERVING NEIGHBOURS & NATIONS

Norah Kennedy Pregnancy Care Centre - Executive Director

No Matter the context, the experience of pregnancy is one of the most shaping events in a woman's life. Most people receive basic education on the biological processes involved in pregnancy, but very few receive adequate preparation for the emotional, physical and spiritual journey of what it actually means to be pregnant.

The Pregnancy Care Center in Edmonton walks with many young people and families facing a crisis of life in their unplanned pregnancy. The Centre offers programs such as Earn While you Learn, Pre-Natal & Post-Natal Support, Men Stepping Up, Abortion Recovery Support, The Birth Mother's Journey and WAIT! Let's talk about sex abstinence program. In addition to the programs, it is the compassionate and loving individual support that the team provide for each woman that has a significant impact.

Norah Kennedy is the Executive Director of the PCC. Norah is a member of our church and a mission partner. As Norah leads her team in supporting the women and the men at the centre, we know we need to be praying and doing whatever we can to stand with her in this important ministry.

Please Pray...

- Pray for ongoing protection and prayer covering over all the team as the enemy seems a little angry at us lately and many are experiencing particularly heavy family and health problems.
- Pray for truth to be revealed as those who have the agenda to remove us from the schools have increased their strategies and call for media attention. Pray for additional covering for the team who go into schools and present the abstinence message in the face of opposition.
- Pray for clients - that the broken, rejected, wounded and confused would come to the PCC and find hope, healing and life. The number of chemical abortions are increasing as it's easier to believe it's "just tissue" when a pill will take care of it for you.
- Pray that we will find someone willing to open their home for a client (at any given moment) as they struggle to get their life under control and find affordable housing.
- Pray for continued UNITY
- Pray most of all that we would always seek Jesus first and be willing to do whatever He asks us to do and that we will rejoice in the calling He has given us.
